

Membrane Filters

CA

Membrane filters Cellulose Acetate CA

Membranes Cellulose Acetate (CA) Dorsan® are hydrophilic and are made on a polyester support inert giving them a high resistance to breakage during use. Offers a high dirty loading capacity filtration and contaminant retention. Such membranes have naturally very low adsorption. They are ideal for filtering products where maximum recovery of proteins is critical. The results are clear and consistent.

Its extraordinary strength and high retention capacity filtration cycles lengthen and provides an economic advantage over other types of membranes.

The quality control process ensures product uniformity and filtration properties and porosity offered.

Features

- Smooth Surface, hydrophilic
- Uniform porosity, high flow rate
- Low protein binding
- Low extractables
- Operating max. temperature 80° C

Applications

- Filtration of aqueous solutions
- Filtration of proteins and enzymes
- Microbiological analysis
- Sterilization of cell culture media
- Sample preparation

Blister Packaging

DORSAN®
LIVING FILTRATION

Membrane Filters CA

Membrane filters Cellulose Acetate CA specifications

| Code | Description | Packaging u. |
|----------------|--|--------------|
| 0,20 µm | | |
| M013CA020 | CA Membrane Filter, Pore 0,20 (µm), Diameter: 13 mm | 100 |
| M025CA020 | CA Membrane Filter, Pore 0,20 (µm), Diameter: 25 mm | 100 |
| M047CA020 | CA Membrane Filter, Pore 0,20 (µm), Diameter: 47 mm | 100 |
| M090CA020 | CA Membrane Filter, Pore 0,20 (µm), Diameter: 90 mm | 25 |
| M142CA020 | CA Membrane Filter, Pore 0,20 (µm), Diameter: 142 mm | 25 |
| 0,45 µm | | |
| M013CA045 | CA Membrane Filter, Pore 0,45 (µm), Diameter: 13 mm | 100 |
| M025CA045 | CA Membrane Filter, Pore 0,45 (µm), Diameter: 25 mm | 100 |
| M047CA045 | CA Membrane Filter, Pore 0,45 (µm), Diameter: 47 mm | 100 |
| M090CA045 | CA Membrane Filter, Pore 0,45 (µm), Diameter: 90 mm | 25 |
| M142CA045 | CA Membrane Filter, Pore 0,45 (µm), Diameter: 142 mm | 25 |
| 0,8 µm | | |
| M013CA080 | CA Membrane Filter, Pore 0,8 (µm), Diameter: 13 mm | 100 |
| M025CA080 | CA Membrane Filter, Pore 0,8 (µm), Diameter: 25 mm | 100 |
| M047CA080 | CA Membrane Filter, Pore 0,8 (µm), Diameter: 47 mm | 100 |
| M090CA080 | CA Membrane Filter, Pore 0,8 (µm), Diameter: 90 mm | 25 |
| M142CA080 | CA Membrane Filter, Pore 0,8 (µm), Diameter: 142 mm | 25 |

Note. Other sizes or porosities should be available under request
