

# Filter Press Fortiplates

## Filter press 400x400 mm Fortiplates

Dorsan® presents the filter press FORTIPLATES of 400 x 400 mm. External press plates constructed of carbon steel and both coated with Stainless Steel AISI 304.

The inner plates which support the filtering material are made from polypropilene.

Very easy to use, has a higher filtering surface than traditional small filters 200 x 200 mm

It involves a very profitable investment for its excellent quality/price ratio.

Allows the use of both filter paper as filter sheets. Being an effective ally in both food & beverages and chemical-pharmaceutical industries

**Available in 3 versions : 20, 40 and 60 plates.**

### Features

Allows the use of filter papers or filter sheets

Inner plate frames made from polypropilene

External press plates built of carbon steel and coated with SS AISI 304.

Excellent quality/price ratio

Three models to choice: 20, 40, 60 plates

Allows the use of both filter paper as filter sheets

## Filter Press Fortiplates specifications

Model	Sheets	Size mm	Flow Rates	Filtration
			lts/hour	Surface m <sup>2</sup>
FORTIPLATES 20	20	400 x 400	3.200	3,20
FORTIPLATES 40	40	400 x 400	6.400	6,40
FORTIPLATES 60	60	400 x 400	9.600	9,60

The showed values of flow rates are orientatives and obtained filtering water. This information doesn't constitute an obligation to the customer from the manufacturer.

The flow rate change in function of several factors as the characteristics of the liquid, pression,temperature, filter media and its progressive fouling.

Note. We reserve the right to change these informations without any previous notice.
